Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website. What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding). X Increase lending or reduce lending less than otherwise would have occurred.							
The CPP capital allowed	the Bank to increase lending.						
X To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).							
The Bank originated \$110 million of loans during 2009 (Year of Funding), including \$19.5 million in residential mortgage loans, \$42.7 million in commercial real estate, \$21.4 million in construction loans and \$23.5 million in commercial loans.

What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?						
There are no specific actions avoided due to the infusion of capital.

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds? As stated above, the CPP funds were utilized to fund our lending efforts. The capital was not utilized to reduce borrowings or other wholesale funding. The infusion did not impact the Bank's levels of provision for loan losses or charge-offs. The Bank prudently manages the credit risk of the loan portfolio and the increased capital level was not a factor.
